

Special Pet of the Week Love!

Meet our Pet of the Week, Love. Love is a stunning, special needs girl who also happens to be a Turkish Angora mix. You might not know it when you first meet her, but five-year-old Love is deaf. Love arrived to OC Animal Care after a local vet clinic noticed her wandering around their facility. After bringing her to the shelter, it was discovered that Love had a microchip. Unfortunately, we were unable to make contact with her former owner, so Love is now available for adoption.

Just like her name, Love is very loving! She adores a good brushing session, which helps keep her gorgeous coat looking clean and chic! Don't let her beauty fool you, Love also likes to play! Turkish Angoras are a well-rounded breed who tend to make excellent family pets, known for their loyalty and affection.

Are you in love with Love? If so, please call 714-935-6848 to schedule an adoption appointment her!
