

# ***Pet of the Week***

## ***Radar!***

Meet Radar! Radar was surrendered to OC Animal in May after his owner was hit hard by the pandemic and no longer had time to care for him. This cool, calm, and collected 8-year-old is in search of a new place to retire and enjoy all the perks that adoptive life has to offer. Although he likes to play and still has plenty of pep in his step, Radar also loves to relax! He would enjoy sitting outside with you and taking in all the surrounding sounds with his big beautiful ears.

This laid-back Shepherd mix adores his daily walks here at the shelter and has already picked up good leash manners while in our care. Radar would be best suited to live with adults or a home with older children who can continue to work with him on his basic training. Before he arrived at the shelter, Radar spent much of his time alone in his backyard and may not be as socialized with other animals. For that reason, we recommend that Radar be the only pet in your family. Are you able to give this handsome fella a second shot at a great life in a new forever home? If so, please call 714-935-6848 to schedule an adoption appointment to meet Radar!
